Art Unit: 3764

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-17, drawn to apparatus, classified in class 482, subclass 907.
- II. Claim 18-34, drawn to method, classified in class 473, subclass 409.

Inventions Group I and Group II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another and materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the process as claimed may be using a cane or stick and the apparatus as claimed may be practice with using a cane.

Because these inventions are independent or distinct for the reasons given above and have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are independent or distinct for the reasons given above and the inventions require a different field of search (see MPEP § 808.02), restriction for examination purposes as indicated is proper.

A telephone call was made to Gary Hecht on 4-13-06 to request an oral election to the above restriction requirement, but did not result in an election being made.

Any inquiry concerning this communication should be directed to Jerome Donnelly at telephone number (571) 272-4975.
